No. 1. Vol. XCVII      WEEK ENDED SATURDAY, 2nd JANUARY, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 363—214 boys and 149 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 210. Of these, 7 deaths were due to tuberculosis, and 26 to malignant neoplasms. There were 4 accidental deaths.

Among the deaths of infants under one year, 2 were due to pneumonia, one to prematurity, one to injury at birth, one to gastro-enteritis and one to congenital malformation.

---

The total number of births registered during the week in the principal towns, was 650—355 boys and 295 girls, of which 173 boys and 129 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 309, of which 169 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 2nd January, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 440—234 boys and 206 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 192. Of these, 2 deaths were due to tuberculosis, and 32 to malignant neoplasms. There were 4 accidental deaths, one of which was due to a transport accident and one to burns.

Among the deaths of infants under one year, 3 were due to pneumonia, 2 to congenital malformation, 2 to prematurity, 2 to injury at birth, 2 to atelectasis, one to influenzal pneumonia, one to asphyxia and one to gastro-enteritis.

---

The total number of births registered during the week in the principal towns was 705 — 359 boys and 346 girls, of which 207 boys and 187 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 293, of which 131 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 30th January, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

### FOR THE PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE G.P.O. ARCADE, DUBLIN

---

No. 8. Vol. XCVII WEEK ENDED SATURDAY, 20th FEBRUARY, 1960 PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 332—169 boys and 163 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 196. Of these, 2 deaths were due to tuberculosis, and 25 to malignant neoplasms. There were 10 accidental deaths, 5 of which were due to carbon monoxide poisoning, 2 to transport accidents, one to drowning and one to burns.

Among the deaths of infants under one year, one was due to prematurity, one to atelectasis, one to injury at birth, one to congenital malformation and one to carbon monoxide poisoning.

---

The total number of births registered during the week in the principal towns was 617—328 boys and 289 girls, of which 158 boys and 141 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 281, of which 127 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 20th February, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

### FOR THE PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE G.P.O. ARCADE, DUBLIN

---

No. 10. Vol. XCVII WEEK ENDED SATURDAY, 5th MARCH, 1960 PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 453—217 boys and 236 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 204. Of these deaths, one was due to diphtheria, 6 to tuberculosis and 27 to malignant neoplasms. There were 8 accidental deaths, 5 of which were due to transport accidents, and one to carbon monoxide poisoning.

Among the deaths of infants under one year, 5 were due to congenital malformation, 4 to prematurity, 3 to pneumonia, 2 to injury at birth, 2 to atelectasis, one to hernia, one to hydrops foetalis and one to Friedlander's septicæmia:

---

The total number of births registered during the week in the principal towns was 809—389 boys and 420 girls, of which 197 boys and 190 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 311, of which 155 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 5th March, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

### PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE G.P.O. ARCADE, DUBLIN

---

No. 14. Vol. XCVII WEEK ENDED SATURDAY, 2nd APRIL, 1960 PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 379—187 boys and 192 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 190. Of these deaths, 3 were due to tuberculosis and 32 to malignant neoplasms. There were 5 accidental deaths, 2 of which were due to drowning and one to a transport accident.

Among the deaths of infants under one year, 7 were due to congenital malformation, 6 to prematurity, 2 to pneumonia, 2 to atelectasis, one to injury at birth and one to congenital debility.

---

The total number of births registered during the week in the principal towns was 728—364 boys and 364 girls, of which 168 boys and 178 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 291, of which 150 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 2nd April, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 473—230 boys and 243 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 161. Of these deaths, 2 were due to tuberculosis and 27 to malignant neoplasms. There were 5 accidental deaths, one of which was due to a transport accident. There were 2 suicides.

Among the deaths of infants under one year, 2 were due to injury at birth, 2 to broncho-pneumonia, and one to congenital malformation.

---

The total number of births registered during the week in the principal towns was 754 — 391 boys and 363 girls, of which 243 boys and 238 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 245, of which 121 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 30th April, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 380—197 boys and 183 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 132. Of these deaths, 6 were due to tuberculosis, and 23 to malignant neoplasms. There were 4 accidental deaths, one of which was due to drowning.

Among the deaths of infants under one year, 4 were due to injury at birth, 2 to congenital malformation, 2 to prematurity, one to pneumonia and one to hyaline membrane disease.

---

The total number of births registered during the week in the principal towns was 682 — 361 boys and 321 girls, of which 188 boys and 164 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 226, of which 94 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 28th May, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

### PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE G.P.O. ARCADE, DUBLIN

---

No. 25. Vol. XCVII WEEK ENDED SATURDAY, 18th JUNE, 1960 PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 420—204 boys and 216 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 126. Of these deaths, 3 were due to tuberculosis, 2 to acute poliomyelitis and 30 to malignant neoplasms. There was one accidental death, which was due to burns.

Among the deaths of infants under one year, 2 were due to prematurity, 2 to congenital malformation, one to acute poliomyelitis, one to meningitis, one to haemolytic disease, one to hyaline membrane disease, one to acute pyelonephritis, and one to atelectasis.

---

The total number of births registered during the week in the principal towns was 767 — 378 boys and 389 girls, of which 198 boys and 214 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 209, of which 115 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 18th June, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

### PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE G.P.O. ARCADE, DUBLIN

---

No. 27. Vol. XCVII WEEK ENDED SATURDAY, 2nd JULY, 1960 PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 402—213 boys and 189 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 167. Of these deaths, one was due to tuberculosis and 29 to malignant neoplasms. There were 6 accidental deaths, 2 of which were due to transport accidents, one to carbon monoxide poisoning and one to drowning. There was one suicide.

Among the deaths of infants under one year, 7 were due to prematurity, 5 to congenital malformation, 2 to pneumonia, one to resection of jejunum, one to neo-natal infection, one to asphyxia and one to atelectasis.

---

The total number of births registered during the week in the principal towns was 680 — 355 boys and 325 girls, of which 214 boys and 215 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 197, of which 109 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 2nd July, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 503—252 boys and 251 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 143. Of these deaths 2 were due to tuberculosis, 2 acute poliomyelitis and 26 to malignant neoplasms. There were 6 accidental deaths, 2 of which were due to transport accidents and one to drowning.

Among the deaths of infants under one year, 5 were due to congenital malformation, 3 to atelectasis, one to pneumonia, one to parotitis, one to haemolytic disease of newborn, one to acute pyelo-nephritis, one to gastro-enteritis, one to ruptured spleen and one to prematurity.

---

The total number of births registered during the week in the principal towns, was 849—404 boys and 445 girls, of which 248 boys and 252 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 228, of which 89 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 30th July, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

PRINCIPAL TOWNS	POPULATION 1956	BIRTHS	DEATHS	CAUSED BY																DEATHS

---

No. 35. Vol. XCVII      WEEK ENDED SATURDAY, 27th AUGUST, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 406—205 boys and 201 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 162. Of these deaths one was due to tuberculosis, and 28 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident. There were two suicides.

Among the deaths of infants under one year, 4 were due to prematurity, 4 to congenital malformation, 4 to atelectasis, 4 to pneumonia, one to ulcerative colitis, one to luetic disease and one to injury at birth.

---

The total number of births registered during the week in the principal towns, was 737—382 boys and 355 girls, of which 234 boys and 211 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 277, of which 151 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 27th August, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

### PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

---

No. 40. Vol. XCVII      WEEK ENDED SATURDAY, 1st OCTOBER, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 431—219 boys and 212 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 124. Of these deaths, 3 were due to tuberculosis and 19 to malignant neoplasms. There were 2 accidental deaths, both of which were due to accidental poisoning.

Among the deaths of infants under one year, 3 were due to congenital malformation, 3 to pneumonia, 2 to prematurity, one to asphyxia and one to injury at birth.

---

The total number of births registered during the week in the principal towns was 766 — 399 boys and 367 girls, of which 259 boys and 233 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 207, of which 103 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 1st October, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

### PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from

THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

---

No. 44. Vol. XCVII      WEEK ENDED SATURDAY, 29th OCTOBER, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 308—150 boys and 158 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 179. Of these deaths, 3 were due to tuberculosis and 35 to malignant neoplasms. There were 5 accidental deaths, 3 of which were due to transport accidents.

Among the deaths of infants under one year, 3 were due to congenital malformation, 2 to asphyxia, one to gastro-enteritis, one to pneumonia, one to respiratory infection, one to haemolytic disease and one to neo-natal cold injury.

---

The total number of births registered during the week in the principal towns was 534—264 boys and 270 girls, of which 148 boys and 156 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 265, of which 151 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 29th October, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

### FOR THE PRINCIPAL TOWNS

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

---

No. 47. Vol. XCVII      WEEK ENDED SATURDAY, 19th NOVEMBER, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 471—243 boys and 228 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 154. Of these deaths, 6 were due to tuberculosis and 19 to malignant neoplasms. There were 3 accidental deaths, one of which was due to a transport accident, and one to carbon monoxide poisoning.

Among the deaths of infants under one year, 2 were due to prematurity, 2 to pneumonia, one to congenital malformation, one to anencephalus, one to gastro-enteritis, one to asthenia, one to peritonitis, one to atelectasis and one to injury at birth.

---

The total number of births registered during the week in the principal towns was 760—390 boys and 370 girls, of which 216 boys and 230 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 237, of which 113 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 19th November, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE  
**PRINCIPAL TOWNS**

---

*Compiled by the Central Statistics Office*

---

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

---

No. 49. Vol. XCVII      WEEK ENDED SATURDAY, 3rd DECEMBER, 1960      PRICE 2d. NET

---

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

---

The number of births registered during the week, to persons normally residing in the principal towns, was 420—226 boys and 194 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 177. Of these deaths, 3 were due to tuberculosis and 32 to malignant neoplasms. There were 3 accidental deaths.

Among the deaths of infants under one year, 3 were due to pneumonia, 3 to congenital malformation, 2 to prematurity, 2 to atelectasis, 2 to asphyxia and one to injury at birth.

---

The total number of births registered during the week in the principal towns was 696—360 boys and 336 girls, of which 236 boys and 198 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 276, of which 145 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the week ended Saturday, 3rd December, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

## WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE  
**PRINCIPAL TOWNS**

*Compiled by the Central Statistics Office*

To be purchased through any Bookseller or directly from  
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN

No. 51 & 52. Vol. XCVII

PRICE 2d. NET

WEEKS ENDED SATURDAY, 24th and 31st DECEMBER, 1960

### PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week, to persons normally residing in the principal towns, was 653—323 boys and 330 girls.

The number of deaths registered, of persons normally residing in the principal towns, was 414. Of these deaths, 8 were due to tuberculosis and 48 to malignant neoplasms. There were 7 accidental deaths, 2 of which were due to transport accidents.

Among the deaths of infants under one year, 8 were due to congenital malformation, 5 to prematurity, 5 to pneumonia, one to bronchitis, one to hyaline membrane disease and one to injury at birth.

The total number of births registered during the week in the principal towns was 1,190—592 boys and 598 girls, of which 327 boys and 325 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 633, of which 320 were registered in Dublin County Borough.

TABLE 1.—BIRTHS and DEATHS registered during the weeks ended Saturday, 24th and 31st December, 1960, which were assigned to the Principal Towns with similar particulars for BELFAST and DERRY.

PRINCIPAL TOWNS	POPULATION 1956	BIRTHS	DEATHS	CAUSED BY													DEATHS Under 1 year of age	65 years and upward	Diseases of the respiratory system			Gastro-enteritis (under 2 years)	External causes	Other causes
